

TF - 50 SCM CUTTING MACHINE

The TF - 50 SCM is a machine intended to the hydraulic hose preparation for swaging (crimping) . It is designed to cut without effort 1 wire braided to 4 spiral hoses from 1/4" to 1.1/4" it is blade in treated. It is perfect to answer the needs of companies of services and is ideal with electrical swaging (crimping) machines.

PERFORMANCES / CAPACITIES

Hose Types : Textile / Wire Braid / Spiral
Diameters : 1/4" to 1.1/4" (wire Braid)

EQUIPMENT

Treated Steel Blade : 300 mm. x 30 mm. x 3 mm.

SAFETY / ENVIRONMENT

Covering : Total
Blade Protection : Return Spring

ELECTRICITY

Motor : 220V/380 V. - 50 Hz - 3Hp
Rotation Speed : 2840 RPV.
Rotational motion of the motor : Arrow
Connection : Star connection
Motor stop : Button

PRESENTATION

Machine : On bench or support
Treatment of surface : Oven painting / burnishing
Anticorrosion treatment : Electrolytic bath
Standard colours : Black and Yellow
